About Us

Established in 2004, South Eastern General Contracting, Inc. (SEGC) is a mid-sized **Native American General Contracting** and **Construction Management Firm** that offers pre-construction planning and design, project management, new vertical construction & horizontal construction, all exterior/interior trades, and renovation construction.

Using our proprietary design/build process, we ensure that we complete high quality work while saving our client's time and money. Thanks to our process, we have one of the best reputations of any design/build company in the state of North Carolina and, according to Google reviews, we have been the highest rated for custom homes and commercial development in the central NC region for over a decade, with 100+ 5 Star Reviews.

If you are in need of top-quality work from a professional, reliable, and process-oriented team, then South Eastern General Contracting, Inc. is your go-to firm.
